# WELCOME LETTER

Welcome!

Thank you for attending the 15th Annual BusCon event. We're glad to be back in Chicago. Full of fine dining, a beautiful lakefront and a great business city, the Windy City has been the home of BusCon for the past five years. Chicago is also a great transportation city boasting great transit, motorcoach and shuttle bus operators.

Your attendance helps make BusCon the biggest bus convention of the year in North America. Nearly every major bus builder is located on the show floor. When it comes to showing off new technology, BusCon shines. New bus models and products abound. This year we have 150 companies exhibiting to help you with your service.

We proudly offer an excellent array of educational seminars led by experts in their field. And, of course, there are fun networking opportunities after a hard day of work. While you are here we hope you will:

**Learn** – Attend great seminars and talk with 150 exhibitors.

**Buy** – Where else can you shop and compare like this?

**Be surprised** – See something new that's just right for you.

**Network** – Forget email. Talk face-to-face with your peers.

**Go home inspired** – The positive energy will pump you up.

We would like to thank the many prominent organizations that have partnered with us to help produce this special event as well as our many corporate sponsors. We sincerely appreciate their support.

Enjoy your time at BusCon in Chicago. It's my kind of town.

Kindest regards,

Wednesday, September 29

5:30pm - 10:00pm

(Game Time 7:10pm)

U.S. Cellular Field *(Paid attendees and exhibitors only)*

Join us for the game after the first day of BusCon. Take the free shuttle right from Navy Pier to U.S. Cellular Field. Network with your peers while watching the game in a private BusCon suite! Enjoy a full dinner buffet, hosted bar, raffle prizes, silent auction and more!

*\*BusCon's networking reception at the Chicago White Sox game is SOLD OUT! Tickets were only available to the first 250 full conference attendees who registered and RSVP'd.*

A very special raffle and silent auction with over \$3,000 in prizes will take place at the reception. All proceeds will go to the Les Turner ALS Foundation.

# EVENT HIGHLIGHTS

## **PROPANE** EXCEPTIONAL ENERGY®

### **PROPANE WORKSHOP\***

Thursday, September 30

10:00am - 12:00pm Room #309

At this informative workshop you will learn all about using Autogas, or propane, as an engine fuel. The workshop will include information on what products are available and refueling options. You will also have a chance to kick the tires on several propane vehicles in the BusCon exhibit hall. [www.thinkgreenthinkpropane.com](http://www.thinkgreenthinkpropane.com)

**\*Must be pre-registered or inquire at registration for availability.**

### **SEE BOBBY HULL AT THE IC BUS BOOTH!**

Wednesday, September 29

2:00pm - 4:00pm Booth #300

Meet one of the greatest hockey players of all time, former Blackhawks legend Bobby Hull, only at the IC Bus booth! "The Golden Jet" will be at the IC Bus booth autographing hockey pucks for BusCon attendees. And while you're at the IC Bus booth, witness the first-ever fully integrated small shuttle bus, the AC Series, a vehicle bound for greatness. Fill out a survey card for a chance to win a hockey jersey!

### **FREE LUGGAGE CHECK**

Save time and money! Check out of your hotel, check your bags at registration and enjoy your last day at BusCon, starting with the breakfast & general session. Walk the exhibit floor from 10:00am - 2:00pm, enjoy lunch and dessert sponsored by IC Bus, then jump on the shuttle to the airport, right from Navy Pier!

### **PROPANE WORKSHOP\***

Thursday, September 30

10:00am - 12:00pm Room #309

At this informative workshop you will learn all about using Autogas, or propane, as an engine fuel. The workshop will include information on what products are available and refueling options. You will also have a chance to kick the tires on several propane vehicles in the BusCon exhibit hall. [www.thinkgreenthinkpropane.com](http://www.thinkgreenthinkpropane.com)

## WEDNESDAY SEPTEMBER 29

8:30AM - 9:30AM

### CONCURRENT SESSIONS

#### TRACK 1 • ROOM# 311

*The Perfect Ride: Providing Superior Customer Service for Passengers with Disabilities*

**Jack Burkert, Transportation Safety Consultant**

The challenge of transporting persons with disabilities is one that every passenger transportation company must meet with efficiency, courtesy and safety. To do this, companies must understand the law, maintain proper equipment, and most critically, employ responsible, well-trained driver personnel. This session will discuss these essentials as well as how companies and drivers must respond to ensure both safe transport and the prevention of legal violations.

#### TRACK 2 • ROOM# 309

*Alternative-Fuel Panel of Experts: Fill Your Tank with Green Solutions*

**Halsey King, Halsey King & Associates, Inc.; John Somers, Clean Energy; Greg Zilberfarb, Propane Education and Research Council; Richard Nelson, National Biodiesel Board**

Find out how to “green” your fleet from our panel of alternative-fuel industry experts. Panelists will discuss the various fuel options available, including: CNG, LNG, propane, biodiesel, as well as the infrastructure and maintenance costs involved. Find out the forecast for alternative-fuel’s future and how you can green your fleet effectively.

#### TRACK 3 • ROOM# 307

*Coach Financing: How to Present Your Company to the Financial Community*

**Michael Denny, MCI Financial Services**

In today’s economy more than ever, it is important to understand what the credit markets look for when considering coach financing for operators. Gain knowledge about the information required by financial institutions, the importance of good financial reporting and the steps to best present your company.

#### UNIVERSITY & TRANSIT TRACK • ROOM# 305

Sponsored by

*How to Effectively Implement a New or Revamped University Transit System*

**Brian Shaw, Sam Schwartz Engineering**

The university environment presents unique issues and opportunities to the operators of campus transit systems. Hear about real-life

# bluemedia™

experiences from Emory University, the University of Chicago and Winston-Salem State University and other institutions in how they were able to initiate new and revamped transit services successfully and ensure a high level of use through outreach and marketing.

---

9:45AM - 10:45AM

## CONCURRENT SESSIONS

### TRACK 1 • ROOM# 311

#### *Driver Fatigue: How to Combat the Silent Killer*

**Robert Crescenzo, Lancer Insurance Company**

The very nature of the job puts coach and bus drivers at risk to the deadly dangers of driver fatigue. By understanding the causes and tell-tale symptoms of fatigued drivers, both management and affected drivers can take proven proactive steps to prevent the condition from resulting in tragic consequences. This presentation reviews some of the steps that can be taken to manage the risk.

### TRACK 2 • ROOM# 309

#### *Modernize Your Preventative Maintenance Program Without Breaking the Bank*

**Halsey King, Halsey King and Associates, Inc.**

New bus technology comes to us, it seems, with a promise of greater operating efficiency at a reduced cost. This presentation examines a number of these new technologies, their benefits, and the job of the fleet manager to rewrite the preventive maintenance program.

### TRACK 3 • ROOM# 307

#### *Shop Safety & OSHA Compliance*

**Jack Burkert, Transportation Safety Consultant**

This session will give you an overview of the critical needs of shop safety & O.S.H.A. compliance. You will gain an understanding of the basics of compliance, frequent O.S.H.A. violations, workplace safety and much more!

### UNIVERSITY & TRANSIT TRACK • ROOM# 305

Sponsored by:

#### *Looking Beyond the Norm to Provide a Green Level of Service*

**Bob Bourne, Bourne Transit Consulting, LLC**

We have all changed our light bulbs, used some bio-diesel, and installed programmable thermostats. Now it is time to review the level of service we provide and how that ties into a sustainable environment. Information will be presented from a Transit Cooperative Research Program and several case studies of how frequency of service affects ridership.

# CONFERENCE SEMINARS

Please refer to p.5 for full Schedule of Events

11:00AM - 12:00PM

## CONCURRENT SESSIONS

### TRACK 1 • ROOM# 311

*How Retreads Can Drive Down Your Bus Tire Costs Without Sacrificing Safety, Performance or Handling*

**Harvey Brodsky, Tire Retread and Repair Information Bureau and Doug Jones, Michelin North America, Inc.**

Thousands of municipal and school buses throughout the U.S. and other parts of the world have been successfully using retreaded tires for many years. Despite this success, many bus fleet managers won't consider using retreaded tires on their fleets. Find out the pros and cons – many pros; very few cons – of retreaded tires.

### TRACK 2 • ROOM# 309

*Behind the Scenes with an OEM – What Did it Take to Develop a 2010 Compliant Coach?*

**Michael P. Melaniphy, Motor Coach Industries, Inc.**

Making a motor coach compliant with the new EPA 2010 engine standards took a lot more than just dropping in a new engine. Get a rare behind the scenes look at the development, prototyping, testing and

We did not invent the wheel, but we are definitely  
**making it better.**

Protective Insurance Company, A+ rated by A.M. Best, is one in an elite group of insurance companies that specializes in the motor carrier industry. Our financial strength, strong customer service, loss prevention services and experienced claims handling are just a few reasons you should consider Protective for an alternative to your current insurance program.

eventual production ramp up that goes into bringing a new power plant package to market. We would tell you more about it now, but then we would have to...well, you know.

## **TRACK 3 • ROOM# 307**

### ***How to Secure Grant Funding to Improve Your Bottom Line***

**Ryan Kelly, TerrapinBlue**

Millions of dollars worth of grants are available to help your operation buy equipment, improve security, meet federal ADA accessibility statutes and provide start-up funding for regional and intercity transportation services. Learn how you can establish lucrative public/private partnerships and secure grant funding to improve your company's bottom line.

## **UNIVERSITY & TRANSIT TRACK • ROOM# 305**

*Sponsored by:*

### ***Tools to Boost Your Campus Ridership***

**Joshua P. Cohen, TransLoc Inc.**

University transit systems spend millions annually to run their fleets. This session will provide attendees with tangible examples of how technology, transportation demand management, and social marketing can get more riders on the bus.

## **THURSDAY SEPTEMBER 30**

8:30AM - 10:00AM

## **BREAKFAST AND GENERAL SESSION • ROOM# 301**

### ***The First 24 Hours: How to Develop, Implement and Test a Serious Incident Response Plan***

**Bob Crescenzo, Lancer Insurance Company**

*Sponsored by*

The absence of a comprehensive, fully understood and periodically rehearsed company-wide plan to deal with a serious accident or passenger-related incident is a recipe for a legal, public relations and business-threatening disaster. This presentation deals with the essential steps bus companies need to take in advance in order to be prepared to effectively deal with and survive these unfortunate events.

# CONFERENCE FACULTY

## **BOB BOURNE CONSULTANT**

### **BOURNE TRANSIT CONSULTING, LLC**

With more than 40 years of experience in public transit, Bob Bourne has completed a 25 year career as Director of CyRide in Ames, Iowa. During his tenure in Ames, CyRide received many awards for its exemplary safety program and its exceptional customer service program. Bob is a consultant specializing in management assistance, safety culture, training, and marketing of university, small urban and rural transit systems.

## **HARVEY BRODSKY MANAGING DIRECTOR**

### **TIRE RETREAD AND REPAIR INFORMATION BUREAU**

Harvey Brodsky has been part of the retreading industry since the early seventies. He has been the Managing Director of the Tire Retread & Repair Information Bureau (TRIB) since 1981 and is involved with promoting the use of retreaded tires both in the United States and many other parts of the world.

## **JACK BURKERT TRANSPORTATION SAFETY CONSULTANT**

Jack Burkert has been involved in transportation safety, management and regulatory policy issues for over 25 years, and has helped government, industry and regulators improve the safety of businesses, drivers and most critically, the traveling public. Jack has taught safety management in conjunction with his tenure at Pennsylvania State University, directed the safety program as Vice President of Safety for the American Bus Association, and recently retired from his position as Senior Vice President of the Lancer Insurance Company.

## **ROBERT A. CRESCENZO VICE PRESIDENT**

### **SAFETY & LOSS CONTROL - LANCER INSURANCE**

Robert A. Crescenzo is Vice President of Safety & Loss Control at the Lancer Insurance Group headquartered in Long Beach, NY. Since 1985, Lancer has been one of the nation's leading insurers of the passenger transportation industry. Robert is responsible for coordinating the Lancer safety engineering program, marketing and seminar preparation for commercial auto customers, including motor coach operators. In 1988 he founded Lancer Compliance Services, a comprehensive drug and alcohol testing service.

## **JOSHUA COHEN TRANSLOC, INC.**

Josh Cohen has worked with TransLoc since 2008, spearheading sales and marketing. Currently, over 700,000 riders a month benefit from

# CONFERENCE FACULTY

the TransLoc Transit Visualization System, a real-time passenger information system that makes transit more convenient and comfortable for riders and more efficient for transit administrators. Josh has presented at conferences for the American Association of Sustainability in Higher Education, the Mid-South Transportation and Parking Association, and the American Public Transportation Association.

**MICHAEL DENNY**  
**VICE PRESIDENT/GENERAL MANAGER**  
**MCI FINANCIAL SERVICES**

Michael Denny has over 25 years of financing experience in the motor coach market and is currently Vice President and General Manager of MCI Financial Services since May of 2002. Prior to that, he spent 18 years with GE Capital including three years as Vice President and General Manager of GE Capital's Commercial Transportation business, and 15 years in various Sales and Sales Management capacities.

**DOUG JONES**  
**CUSTOMER ENGINEERING SUPPORT MANAGER**  
**MICHELIN NORTH AMERICA, INC.**

Doug has been employed with Michelin for over 33 years in various engineering and technical positions. He currently holds the position of Customer Engineering Support Manager. Doug attended Wofford College and obtained his Bachelors in Mathematics and Physics and also attended the University of South Carolina and obtained a Masters in Physics.

**RYAN KELLY**  
**PRESIDENT/CEO**  
**TERRAPIN BLUE**

Ryan Kelly has been a pioneer in developing leading edge transportation solutions incorporating the use of public/private partnerships to solve many transportation issues in communities across America. Ryan began his career developing a rural public transportation system in Macon County, Georgia through a governor's internship program. Ryan has also been working with many private transportation companies in successfully diversifying their transportation portfolios to include commuter, airport, transit, school bus, university, and intercity fixed route contracts nationwide.

**HALSEY KING**  
**PRESIDENT**  
**HALSEY KING & ASSOCIATES, INC.**

With more than 26 years of experience in the repair, inspection and management of vehicle fleets, Halsey is a regular speaker and writer on maintenance and technology issues. He mastered the mechanic training programs at Cerritos City College, Long Beach City College,

# CONFERENCE FACULTY

and Cummins Engine School and received his Journeyman Mechanics license from the State of California in 1972. He provided maintenance management oversight for the FTA at the four shops of the U.S. Olympic Games in Atlanta. Last year, Halsey King & Associates reviewed and redesigned the fleet preventive maintenance program at several public and private fleets nationwide.

**MICHAEL MELANIPHY**  
**VICE PRESIDENT PUBLIC SECTOR**  
**MOTOR COACH INDUSTRIES, INC.**

Michael Melaniphy is Vice President Public Sector for Motor Coach Industries, Inc., the largest manufacturer of over-the-road motor coaches in North America. Michael joined the company in January of 2001 as Director of Public Sector Sales and was promoted to Vice President Public Sector in April of 2005. Mr. Melaniphy has responsibility for MCI's Public Sector Division which includes public transportation, military, university, law enforcement and international markets.

**RICHARD NELSON**  
**CO-DIRECTOR - CENTER FOR SUSTAINABLE ENERGY**  
**KANSAS STATE UNIVERSITY**

Richard Nelson is Co-Director of the Center for Sustainable Energy at Kansas State University specializing in biomass energy feedstock assessment, supply, and sustainability. He is also principal of Enersol Resources, a private consulting firm specializing in energy and environmental assessment and analysis. He has over 19 years experience in the bio-energy field and has served as a consultant to the National Renewable Energy Laboratory, Oak Ridge National Laboratory, Idaho National Laboratory, Western Governors' Association, and the National Biodiesel Board.

**BRIAN SHAW**  
**SENIOR PLANNER**  
**SAM SCHWARTZ ENGINEERING**

Brian Shaw is a Senior Planner with Sam Schwartz Engineering focusing on assisting campuses, large employers, and regional planning commissions in providing sustainable and cost-effective solutions to address their transportation and parking needs. In his last position as Director of Campus Transportation and Parking Services for the University of Chicago, Brian developed and implemented transportation demand management (TDM) programs that reduced parking demand, increased public transit ridership and carpooling, and encouraged biking and walking, all while increasing parking revenue for the University.

# CONFERENCE FACULTY

## JOHN A. SOMERS

### DIRECTOR OF TRANSIT BUSINESS DEVELOPMENT CLEAN ENERGY

John Somers is Director of Transit Business Development for Clean Energy, North America's largest provider of natural gas for transportation. John and his team focus on fixed route transit operators, para-transit systems, and university transit operations. John brings to his post extensive public policy, grant-making/grant-writing, and federal government funding experience.

## GREG ZILBERFARB CONSULTANT

### PROPANE EDUCATION AND RESEARCH COUNCIL (PERC)

Greg Zilberfarb is currently working with the Propane Education and Research Council (PERC) to provide commercialization and outreach support for new products utilizing propane powered engines. His alternative fuels background is extensive and diverse. In addition to his work with PERC, he is working with the National Biodiesel Board on OEM outreach and education. Greg is currently President of the-Sales.NetWork, a provider of education and outreach services to the alternative fuel industry headquartered in Virginia.
